

CUSTOM COLOURS
magnetic fasteners by FIDLOCK

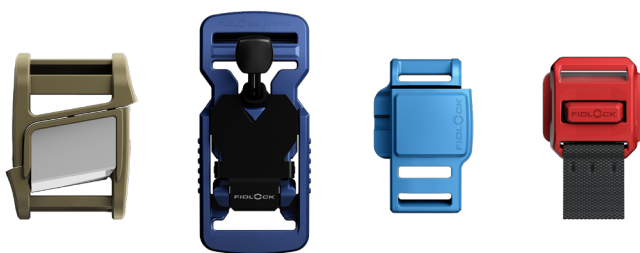

Custom colours – magnetic fasteners by FIDLOCK

Colours are of great importance for a product's design. On the one hand, they can draw attention to specific components and features. On the other hand, a matching colourway can allow them to blend into the overall appearance or perfectly suit your brand.

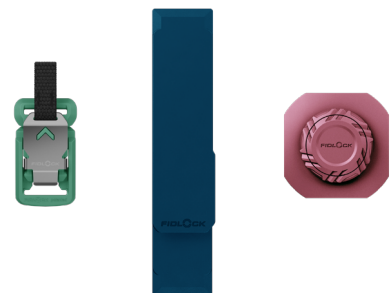

Therefore, we offer different possibilities to customize the colours of our magnetic fasteners. Two options are available – standard colours from our FIDLOCK colour program or individual colours by Pantone code or reference sample:
