FIDGUARD

MAGNETIC POWER HAS BEEN OUR PASSION AT FIDLOCK FROM THE START. INNOVATION AND MILLIONS OF MAGNETIC FASTENERS ON PRODUCTS LIKE BAGS, SHOES, AND HELMETS TURN OPENING AND CLOSING INTO AN **INTUITIVE, SURPRISING EXPERIENCE.**

IN 2016, WE REVOLUTIONIZED THE BIKE BOTTLE, DEVELOPING A PRODUCT WITH OUR OWN **TWIST** TECHNOLOGY. ALONG WITH OUR **PINCLIP** FAMILY, THE SMART **HERMETIC** BAGS AND THE UNIQUE **VACUUM** SMARTPHONE MOUNTS, WE OFFER SOLUTIONS FOR EVERY BIKER AND OUTDOOR FAN. WHEREVER YOUR ADVENTURE TAKES YOU, RELY ON FIDLOCK FOR **SMART DESIGN, UNIQUENESS, AND SECURITY.**

RIDE IT
HARDER

TWIST FREED THE BIKE BOTTLE FROM ITS CAGE! BY SUBSTITUTING THE BIG AND OLD-FASHIONED BOTTLE CAGE WITH FIDLOCK'S TRIED AND TESTED CONCEPT OF **ALL THE FUN AND POWER OF MAGNETS** WITH A SECURE MECHANICAL LOCKING, FIDLOCK REINVENTED THE WAY WE SHRED ON BIKES. ALL IT NEEDS IS THE **17 G LIGHT BASE** WHICH CAPTIVATES WITH ITS **SMALL AND MINIMALISTIC DESIGN**. THANKS TO ITS MODULAR CONCEPT, THE TWIST SYSTEM IS CONSTANTLY EXPANDED AND CURRENTLY CONTAINS VARIOUS BIKE BOTTLES, BAGS AND MORE SMART STUFF COMING UP THIS YEAR.

TWIST

cageless magnetic-mechanical mounting system

INTUITIVE

The modules are easily connected by letting them "SNAP" to the base and are released with one simple clockwise "TWIST". Easy, quick and space-saving – the solution also for small frames.

SECURE

Strong magnets and a mechanical latching provide an easy connection and a secure locking – even under strain.

MODULAR

The TWIST system always consists of a magnetic base and a module with the necessary magnetic connector. So all modules can be combined with all bases of the TWIST system – one interface, countless possibilities.

TWIST SQUEEZABLE BOTTLES - SMART HYDRATION SOLUTIONS WITH VERSATILE MATERIALS, AND OPTIMIZED DESIGNS FOR EVERY ADVENTURE

Our TWIST bottles combine ergonomic design with the unique magnetic-mechanical mounting system for a secure hold and intuitive handling - anywhere, anytime. Their space-saving design ensures maximum compatibility, even in tight spaces, whether on a bike, stroller, or backpack. Different materials such as BPA-free polyethylene, tritan, or stainless steel, along with matching lid options, make TWIST bottles the ideal solution for every application and every need. From compact 450 ml bottles to 800 ml versions for longer adventures. All TWIST bottles are compatible with all TWIST bases.

2014

The origin of the idea
Friedemann Richter begins developing a new magnet-mechanical mounting system for bike bottles.

"In the beginning, TWIST was simply the idea of rethinking the way bike bottles are handled using our magnet-mechanical technology. Back then, nobody expected it would evolve into an entirely new direction for FIDLOCK."

Friedemann Richter,
Technical Director
Consumer Products

2016

Eurobike – The start of TWIST
First presentation as an OEM-only product.

2017

Establishing a dedicated consumer unit
FIDLOCK expanded its focus from purely B2B components to its own consumer products.

"TWIST marked the moment when FIDLOCK transformed from a technology specialist into a consumer brand. To this day, we are fascinated by the idea of developing products that are intuitive and feel almost second nature to use."

Holger Knorr,
Sales Director Consumer Products

2019

More volume, More possibilities
With the TWIST bottle 590, FIDLOCK expands the product range with an ergonomically shaped bottle designed for longer rides and higher performance demands.

2021

Launch of VACUUM
The next technological step. The second major technology has been launched with the new magnetic smartphone mounting system for cycling, everyday use, and outdoor activities.

Until today
Expansion of the TWIST ecosystem

New bottle sizes, materials, and product categories continuously expanded the system.

2016

2026

10 YEARS OF TWIST. FROM IDEA TO PLATFORM.

Ten years ago, FIDLOCK asked a simple question: How can a bike bottle be attached to the bike in a more intuitive, compact, and elegant way? The answer was TWIST – a system combining magnetic guidance with a secure mechanical lock, launched in 2016 as a completely new solution.

The enthusiasm for this innovative concept quickly demonstrated its potential and led to the establishment of the FIDLOCK consumer brand. TWIST thus became not only a successful product but also the starting point for a new chapter in the company's history.

Today, the original TWIST bottle has evolved into a versatile ecosystem spanning cycling, urban mobility, and outdoor activities – encompassing everything from bottles and bags to solutions for tools, locks and range extenders. Although FIDLOCK has since developed other technologies such as VACUUM, PINCLIP, FIDGUARD, and HERMETIC, TWIST remains the origin of this success story and continues to embody the company's spirit of innovation.

bike base signature edition

limited *bike base* edition made of
CNC-milled aluminium

As part of the 10th anniversary celebration of *TWIST*, the *TWIST bike base* is being launched in an exclusive special edition made from CNC-milled aluminium. Made in Germany, limited to just 1,000 pieces, and individually engraved from 1 to 1,000, each base becomes a true collector's item. Packaged in a special anniversary metal case, the Limited Edition combines premium craftsmanship with a distinctive sense of exclusivity. Despite its exclusive appearance, it naturally offers all the proven features of the *TWIST bike base*: compact, minimalist, and perfectly integrated into the bicycle frame.

- > globally limited to 1,000 units

bottle 590 anniversary edition

limited *bottle 590* edition featuring
unique anniversary design

To celebrate the 10th anniversary of *TWIST*, the *TWIST bottle 590* is being released in a limited special edition featuring a unique anniversary design. As a tribute to the first iconic *TWIST bottle 600* from 2016, the neon yellow details revive the legendary look of the original bottle. The design is complemented by a distinctive patch-style print showcasing numerous small motifs from the FIDLOCK world. The proven ergonomic shape and intuitive handling continue to ensure a secure grip and maximum comfort on every ride.

ULTIMATE VERSATILITY FOR BIKE PACKING ADVENTURES

uni connector XL

universal storage pickup for cageless magnetic-mechanical mounting system

The ultimate solution for extra storage on bikepacking adventures: The *TWIST uni connector XL* combines the proven *TWIST force connector* with a cargo plate and two straps to securely fix your gear. This creates a robust and versatile platform for safely attaching additional items to your bike. The *TWIST uni connector XL* can be used with the bike base on the bike frame. For special applications on the bike fork, it is perfectly matched with the all-new *TWIST vario base*. The combination of the force connector and vario base allows easy transport of heavier loads. Typical bikepacking setups often don't have enough space. The additional combination of the bike fork, vario base, and *TWIST uni connector XL* creates extra storage exactly where it doesn't get in the way. Water bottles, sleeping bags, air mattresses, or dry bags – everything can be securely stored with the *TWIST uni connector XL*.

- › allows easy transport of large items
- › secure hold thanks to locking mechanism
- › variety of attachment eyelets for individual adjustment
- › including 3 straps for secure storage fixation
- › fits all firmly screwed *TWIST bases*

base for battery holder BPM

slide-on cageless magnetic-mechanical holder
compatible with PowerMore 250 from Bosch

The *TWIST base for battery holder BPM* offers a practical solution for switching between the range extender and a *TWIST bottle*. It slides directly onto the existing Bosch PowerMore 250 Wh battery mount, enabling the use of a *TWIST bottle* when additional battery capacity is not required. Thanks to its tool-free design, this *TWIST base* can be mounted and removed quickly and easily. This ensures the right setup is always available – whether for athletic rides, daily commuting, or short-range tours.

- › compatible with the Bosch PowerMore 250 Wh range extender mount
- › allows use of a *TWIST bottle* instead of the range extender
- › slides easily onto the existing battery holder
- › quick and tool-free installation and removal
- › ideal for flexible setups based on ride requirements

NEW

force connector for range extender

heavy-duty connector
for attachment to range extender

The new *TWIST force connector* is the perfect addition to the range extender. It offers a secure and rattle-free hold thanks to a clever locking mechanism. Together with the *TWIST force connector*, the range extender becomes *TWIST system* ready, which enables the range extender to be attached and removed flexibly and quickly.

- › make your range extender *TWIST system* ready
- › secure hold thanks to locking mechanism
- › easy to attach with screws

screws: 4x M4x16 / DIN 912 / ISO 4762
weight (scope of delivery): 72 g

bottle connector left turn

left-turning release connector
for bottle mount

Maximum flexibility when drinking on the go. Now you can choose which hand to use and which direction to turn. *TWIST bottles* can now also be removed by turning to the left. Thanks to the left-turning mechanism, the *TWIST bottle connector left turn* is compatible with various frame geometries that previously didn't allow the bottle to be turned to the right. Attaching the new connector is easy: Simply insert the *TWIST bottle connector left turn* into the recess of the *TWIST replacement bottle* and close the locking mechanism with a coin.

- › counterclockwise-turning release
- › well-known easy installation
- › fits all *TWIST bottles* without *TWIST belt* only

bike base adapter

screwable adapter for shifting
the *TWIST bike base*

The *TWIST bike base adapter* creates more space by shifting the mounting points, allowing for more flexible positioning of the *TWIST bike base* where space is limited – e.g. on narrow frames or when using frame bags. It is mounted underneath the *TWIST bike base* to the bottle cage braze-ons. Thanks to the slotted holes, the adapter allows the base to be moved an additional 26,5 mm upwards and downwards.

- › adapter for shifting the *TWIST bike base*
- › gains additional 26,5 mm in each direction
- › for installation to the braze-ons

ahead cap base

vacuum-magnetic smartphone
mount for the ahead cap

The VACUUM ahead cap base is our smartphone mount for the ahead cap. It consists of a special ahead cap that is screwed to the head tube. The VACUUM ahead cap base is then placed on the cap and is easily secured with a clamp using a knurled screw, or theft-proof with an Allen screw. The VACUUM ahead cap base can thus be quickly removed when no smartphone is needed, while the plain cap remains screwed to the bike.

- > for installation on the ahead cap
- > fits all 1 1/8 inch threadless headsets
- > no interference with electronics
- > fits all VACUUM cases/uni phone patches

handlebar base flex

vacuum-magnetic smartphone
mount for handles and handlebars
with toolless mounting

The VACUUM handlebar base flex offers a brilliantly simple solution for anyone who wants to keep their smartphone securely in view. The device stays firmly attached to the handlebars, yet can be easily operated, released, and re-secured with just one hand. The smartphone mount can be installed with just a few simple steps and without the need for tools. This allows the smartphone to be attached to different handlebars in a flexible manner.

- > toolless mounting with hand-tightening clip
- > for installation to bar tubes up to Ø 40 mm / 1.6 inch
- > no interference with electronics
- > fits all VACUUM cases/uni phone patches

handlebar base

vacuum-magnetic smartphone
mount for handles and handlebars

The VACUUM handlebar base has a low profile and can be easily attached to the handlebars with a clamp or cable ties. The set includes two clamps for handlebars with a diameter of 22.2 mm and 31.8 mm, as well as a universal solution with cable ties for other handlebar sizes. On the way without a smartphone, the VACUUM handlebar base blends unobtrusively into the overall appearance of the handlebars. The combination of vacuum and magnetic force keeps the mobile phone securely on the holder - even when the way leads over cobblestones or root trails.

- > for installation on the handlebar
- > fits all bar tubes Ø 22-46 mm / 0.9-1.8 inch

uni phone case M/L

universal vacuum-magnetic smartphone case

The VACUUM uni phone case safely protects the smartphone from water, mud, and dust on and off the base. Thanks to the patented "just-let-go" principle, the case closes automatically and fully hermetically. It is compatible with all VACUUM bases. Therefore, the smartphone is safely protected from environmental influences even mounted on a tripod, on a stroller, bike, or e-scooter. With its touch-sensitive and the see-through material taking pictures and videos through the case is possible as well as taking phone calls.

flex desk base

vacuum-magnetic smartphone mount for the desk

The *VACUUM flex desk base* provides a secure holder for your smartphone on the desk. It consists of a stable base and a long, flexible arm with our *VACUUM head*. This is screwed onto the arm of the flex desk base at a 90° angle – making it perfect for using the smartphone as an additional screen in the office, for video conferences at work or at home or when cooking a new favourite recipe. No matter where you use it - this stable attachment keeps your smartphone in the perfect height, while you have your hands free for other activities.

saddle base

bicycle saddle adapter
for magnetic-mechanical
quick-change system

The new *PINCLIP* saddle bag combines a modern and practical design with the new *PINCLIP* technology, which guarantees a play-free connection. This technology makes attaching and removing the saddle bag easier and more secure than ever before. The well thought-out design impresses with its intelligent compartmentalisation and offers plenty of space for tools, spare tubes, personal items and more. The waterproof material ensures durability and protection from the elements, while the slim profile ensures that the ride is not impaired by bulky equipment. Thanks to the roll-top closure with FIDLOCK's *V-BUCKLE S*, the *PINCLIP* saddle bag can be closed easily and securely and the bag volume can be adjusted variably.

The *PINCLIP* saddle base is perfect for those who own two, or maybe even several bikes. With the *PINCLIP* saddle base, the right bag is always on the right bike. The base is easily attached to the saddle rails with only two screw and it is compatible with all standard rails.

dimensions: 73 x 20 x 48 mm
weight: 16 g

magnetic-mechanical quick-change adapter for action cams

Whether just for fun, down the trail or in the middle of the bike park: the greatest moments are best documented with an action cam. It is always attached to different positions on the body or on the bike. Thanks to the *PIN-CLIP action cam mount*, this is now possible at breakneck speed with maximum flexibility: the adapter allows super-fast changing of action cams, with a single click. A vibration-free functionality goes without saying.

- > ultra-fast attaching and detaching
- > robust and maintenance-free design
- > compatible with all popular action cams
- > fits with the *PINCLIP saddle base*

HERMETIC

magnetic self-sealing bags

WHETHER BEACH LOVER, A BIKE- OR BACKPACKER, SMARTPHONE-JUNKIE, OR OUTDOOR ACTIVIST – THE **AUTOMATIC, SELF-SEALING CLOSURE** WITH THE **PATENTED** MAGNETIC TECHNOLOGY ENSURES THAT NOT EVEN THE SMALLEST DUST PARTICLE GETS INSIDE OR OUTSIDE THE BAGS. THE **HERMETIC** CLOSURE WON'T EVEN STAY OPEN ACCIDENTALLY: **"JUST LET GO!"**

INTUITIVE HANDLING

No manual locking, clicking or sliding required. To open the bag, simply fold the rows apart. Close the bag by just letting go.

MAGNETIC SELF-SEALING

The three magnet bars close automatically and seal completely hermetically thanks to FIDLOCKS unique patented technology.

100% WATER/LEAK PROOF

The high-quality materials are perfectly coordinated so that there is no space for any dust or water drop between them.

IPX8
WATERPROOF
DUSTPROOF
30m/100ft

sling bag

magnetic self-sealing bag for hip or shoulder

Casually across the chest or practically around the hips: the *HERMETIC sling bag* fits just as perfectly as it protects against moisture and dust. The patented, automatically sealing closure is 100% tight. Be it on a city trip, a jump into a wild adventure, or discovering the world on the water with your SUP: The sling bag offers space for the most relevant things that are dear to you. In addition to a smartphone, important cards, charging cables and car keys are always with you. And the practical FIDLOCK SNAP buckle is child's play to operate with one hand.

- > urban or outdoors: stylish protection for smartphones and valuables
- > magnetic self-sealing closure
- > 100% water and sand proof
- > full touch functionality through the case
- > no interference with electronics and cards
- > integrated FIDLOCK buckle for easy fastening

dry bag maxi

M-sized magnetic self-sealing bag for bigger items

Maximum protection against dirt and moisture, thanks to Gooper® technology: The *HERMETIC dry bag maxi* is the perfect size if you are out and about with a few more items than planned. Even maps can be stored easily in your bag during a hike – of course, so can more high-tech GPS equipment. The patented, magnetic closure system snaps shut as on all the *HERMETIC dry bags* – just let go!

- > for maps and GPS-devices
- > magnetic self-sealing closure

dry bag medi

S-sized magnetic self-sealing bag for smartphones

The *HERMETIC dry bag medi* is the perfect size for a smartphone. Mobile junkies will love it: thanks to the touch-capable material you can always stay online. Of course, it's not just for smartphone junkies, this size is also perfect for keeping passport, credit card and any other documentation safe. The included lanyard turns this dry bag into a chest pouch. When you are having fun at the beach you can always be assured that this pouch will keep all things safe from water and dust.

1.5L – universal

2.5L – universal

hydration bladder

magnetic self-sealing hydration bladder

Climbing, biking, or hiking – staying hydrated is essential. The *HERMETIC hydration bladder* is incredibly easy to fill and seals itself instantly and automatically. Thanks to FIDLOCK's patented closure technologies, handling is effortless – so every adventure can start quickly and reliably. Three wide-opening magnetic strips create a self-sealing, hermetic closure that ensures maximum leak protection. An additional *SNAP* fastener on the flap prevents accidental opening during activities and can be operated with just one hand – whether carried in a backpack or hip belt. Available in two sizes for use in backpacks (1.5 L and 2.5 L), as well as a dedicated 1.5 L version designed specifically for hip belts – each option tailored to different needs. The wide opening makes it easy to fill, empty, and clean the bladder in no time.

- › large opening for easy filling and cleaning
- › maximum tightness thanks to patented technology
- › no manual locking, clicking or pushing
- › available in 1.5 L and 2.5 L / 50.7 and 84.5 fl oz volume
- › BPA free and tasteless material (TPU)

tube clip S/M

magnetic-mechanical clip for mounting the drinking tube to straps

The next evolutionary step in hydration bladder management with the revolutionary FIDLOCK *tube clip*! No more fiddling around with loops or clips – the FIDLOCK *tube clip* offers an innovative magnetic-mechanical fastening solution for hydration tubes on backpacks or hip belts. Installation is extremely simple: the patented magnetic-mechanical mount is attached to a strap and the matching counterpart to the tube of the hydration bladder. Thanks to the magnetic attraction, the tube always stays securely in place. The FIDLOCK *tube clip* releases automatically as soon as the tube is lifted straight upwards.

- › drinking tube quickly within reach
- › magnetic closure for easy handling
- › two tube diameter available:
Ø 9 mm / 0.35 inch or Ø 11 mm / 0.43 inch
- › fits straps Ø 20 mm / 0,78 inch

for/with hydration bladder

high-performance hydration bag
for/with *HERMETIC hip bag hydration bladder*

The new *HIP BELT* for *hydration bladder* is the perfect solution for long and demanding trails. The removable *HERMETIC* compartment protects sensitive items with 100% waterproof and dustproof sealing. A dedicated pocket for the *HERMETIC hip bag hydration bladder* and a spacious main compartment with five sub-sections ensure optimal organization. Elastic loops on the outside hold accessories in place, while reflective details enhance visibility. The FIDLOCK magnetic-mechanical *HOOK* buckle allows intuitive handling – even with gloves. Includes FIDLOCKS *tube clip S* for easy hydration on the go.

- › 100% waterproof/dustproof removable *HERMETIC* compartment
- › extra-large main compartment + two additional side pockets
- › dedicated compartment for the *HERMETIC hip bag hydration bladder*
- › intuitive and practical FIDLOCK closure on the *HIP BELT*
- › back padding for ventilation and cooling
- › splash-proof material and zipper
- › includes FIDLOCK *tube clip S* for easy dringing tube attachment
- › reflective elements for increased visibility in darkness

single + bottle 450

high-performance running bag
featuring one *TWIST base* incl. 1x *TWIST bottle 450*

The new *HIP BELT single* is the perfect companion for all mileage counters and record breakers. Whether it's a drizzle or a heavy downpour, thanks to the hermetic sealing technology of the main compartment, the smartphone is protected 100% against water, mud, and even the finest dust. The *HIP BELT single* comes with an integrated *TWIST tex base*. The included *TWIST bottle 450* ensures necessary hydration. Additionally, there's another storage compartment in the middle and a smaller one with a zipper on the side. The waist belt is opened and closed with a FIDLOCK buckle, ensuring quick opening and closing.

- › 100% waterproof and dustproof *HERMETIC* storage compartment
- › integrated *TWIST tex base* for carrying one *TWIST bottle*
- › includes 1x *TWIST bottle 450*
- › two side compartments for quick access to keys etc
- › intuitive and practical FIDLOCK buckle on the waist strap
- › splash-resistant material and zipper
- › reflective elements for increased visibility in darkness
